

Chapter 11

SR Products, Services, and 2026 Pricing

Kit pricing, door options, shipping, and how to get started

2026 SR Hybrid Core Kit Pricing

The Hybrid Core uses approximately 230 firebricks with 18 cast refractory slabs. More economical kit cost with additional build time. Prices include all core materials, SR doors, and full drawing package. Installation is quoted separately.

SR-13H (SR-13 Hybrid, no oven): \$7,016

SR-13HBO (SR-13 Hybrid with black oven): \$8,175

SR-13HWO (SR-13 Hybrid with white oven): \$8,465

SR-18H (SR-18 Hybrid, no oven): \$8,769

SR-18HBO (SR-18 Hybrid with black oven): \$10,073

SR-18HWO (SR-18 Hybrid with white oven): \$10,363

SR-22H (SR-22 Hybrid, no oven): \$9,204

SR-22HBO (SR-22 Hybrid with black oven): \$10,508

SR-22HWO (SR-22 Hybrid with white oven): \$10,798

2026 SR Cast Core Kit Pricing

The Cast Core uses approximately 40 firebricks with 55 precision refractory castings. Fastest to build with minimal cutting. Higher kit cost is typically offset by reduced labor time.

SR-13C (no oven): \$9,157

SR-13CBO (with black oven): \$10,600

SR-13CWO (with white oven): \$10,756

SR-18C (no oven): \$11,805

SR-18CBO (with black oven): \$12,050

SR-18CWO (with white oven): \$12,437

SR-22C (no oven): \$12,614

SR-22CBO (with black oven): \$13,314

SR-22CWO (with white oven): \$13,612

Cook Stove Combinations

SR-13HCH (SR-13 Hybrid with cook top): \$7,016

SR-13HCH-BO (with cook top and oven): \$8,216

SR-18HCH (SR-18 Hybrid with cook top): \$8,769

SR-18HCH-BO (with cook top and oven): \$9,969

SR Firebox Doors: 2026 Pricing

All SR doors are fabricated in Duluth, MN using North American refractories and steel with pyroceramic glass sourced from Germany. Includes an air frame supplying 100 percent of required combustion air with proper preheated underfire and overfire air ratios, plus an air wash to keep the glass clean. Allow 6 to 8 weeks lead time on all door orders.

SR-13FB (13.25" x 18.75" glass): \$1,622

SR-18FB (18.25" x 18.75" glass): \$1,861

SR-22FB (22.25" x 18.75" glass): \$2,008

SR-28FB (28.25" x 18.75" glass): \$2,607

SR-32FB (32.25" x 18.75" glass): \$2,901

Arched top doors: add \$135 per door. Custom door sizes available for masonry heaters, bake ovens, cook stoves, fireplaces, and commercial wood-fired ovens.

Additional Options

Heated bench: \$250 per linear foot (core materials only; facing by local mason)

SR-CO Cleanout Door with 4" deep air frame: \$143

SR-A Gasketed Ash Door: \$315

Design services: \$200 to \$1,500 depending on scope

Total Installed Cost Ranges

Stone masonry heater (Hybrid or Cast Core): \$29,500 to \$37,000

Brick masonry heater: \$25,000 to \$33,000

These ranges represent a standard installation including core kit, finish materials, foundation, chimney, and labor. Projects that are significantly larger, require complex foundations, involve remote travel, or include premium finishes will fall outside these ranges.

Shipping

We ship from Duluth, MN to all regions of the United States and Canada. Kit pallets typically weigh up to 2,000 pounds each and ship by freight. Three delivery options: shipping to a local business or hardware store with a forklift (preferred and most economical), shipping to a local freight transfer station for pickup, or shipping direct to your property if you have equipment to handle a 2,000-pound pallet from a semi-truck.

How to Get Started

Tell us about your project: square footage, ceiling height, construction type, location, floor plan if available, and what you are hoping to accomplish. We will identify the right model, configuration, and options for your layout and provide a detailed kit quote covering materials, doors, and shipping.
